Flexible rubber connectors for non-pressure sewage systems

PRODUCT SPECIFICATION

The products as specified in the tables below fulfil the requirements of BRL 5220 "Flexible rubber couplings for non-pressure sewerage systems". The following products are covered by this product certificate.

Example:

Table 1 – Straight coupling (if applicable)

Range d _i in mm	Product number
0 - 1300	

Table 2 – Filling ring (if applicable)

Range d _i in mm	d _e in mm	Product number
0 - 1300		

TECHNICAL SPECIFICATION OF THE PRODUCT

Details of the products are included in the drawing list, which forms a part of the IQC schedule. Kiwa authenticates this list. A copy of this list can be obtained from the producer.

MARKING

The products and/or /packaging are marked with:

- The marking KOMO® or the KOMO®-brand followed by the certificate number. The execution of the mark is as follows:

- the name of manufacturer or the deposited trade mark;
- the date of production or production code;
- type of rubber applied by means of the letter codes of the nomenclature according to ISO 1629;
- the nominal dimension or dimensions.

RECOMMENDATION FOR THE CUSTOMER

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

if you should reject a delivery on the basis of the above, please contact:

- Certificate holder

and, if necessary:

- **CE**

For the proper storage, transport and processing consult the instructions of the certificate holder.

Statements made in this quality declaration are not to be used instead of CE-marking and/or the required Declaration of Performance (DoP).
